

EQUINE FLU POLICY

Due to the continued outbreaks of equine flu, it is a condition of entering this year's show that you have an up to date flu vaccination.

Horses must have been vaccinated to comply with the requirements of the primary course (1st vaccination and the 2nd vaccinations between 21 and 92 days later). Followed by the first booster (150 - 215 days) and all subsequent boosters. Horses may compete having received the primary course and prior to the 1st booster but not within 7 days of receiving a vaccine dose.

Horses must have been vaccinated within 12 months before the show (since 1st December 2018) but not less than 7 days before the show (before 24th November 2019).

Please ensure you have your horse/pony's ID passport with you as we will be carrying out random checks on the day.

We recommend that all trailers and boxes should be cleaned prior to attending the show to reduce the risk of spreading infection and you should also bring your own water and buckets.

If you cannot present your passport showing up to date vaccinations you may be asked to leave the showground.

Thank you for your cooperation.
